

CYBER SUITS FOR LIVES
SUITS

Cyber suit

Wearable neural interface

Effective in rehabilitation

**Cyber
Reset**

Restores

damaged nervous system and
musculoskeletal system

Due to biofeedback and acceleration
of tissue regeneration

In everyday **life**

Cyber Fitness

Reduces weight

selectively increases muscle mass

Due to complex neurostimulation, it allows you to stay in good athletic shape

Creates **design** nerve impulses

The effect of touching an object

Occurs when reading signals from nerves and creates the construction of missing nerve impulses

This allows you to more accurately manipulate an object, feel its shape, texture, weight, volume and temperature

**Cyber
Sens**

Connects **all** sensor systems

**Cyber
DEEP**

Full immersion

into virtual reality and moving
in the virtual world without
moving

Thanks to the full connection of
all sensory systems of the
body

Helps you learn any motor skill in no time **21 days**

Cyber Skills

Teaches

playing musical instruments,
professional sports skills, dancing

Due to repeated repetition of the correct movements, learned from professionals, physiological habits are acquired

Project mission

Company **CyberMyonics**

- **Developed a unique technological Cyber Suit**

for assistance and recovery for people who require rehabilitation after injuries or strokes

- **The Cyber Suit is designed to**

regain the feeling of a full life and the opportunity to do what you love

Market Review

rehabilitation equipment

The rehabilitation equipment market is growing every year

10%

**0.5% =
61,2 bln \$**

Projected Cyber Suit Market Share

Growth of the Russian market

6%

400 bln \$

Projected capitalization

12 907 bln \$

Global market size for rehabilitation equipment

10%

CAGR of the international market from 2016 to 2025

Market Review

equipment for VR

The VR equipment market is growing every year

15%

Growth of the Russian market

13%

**0.5% =
18,5 млн \$**

Projected Cyber Suit Market Share

80 млн \$

Projected capitalization

Global VR equipment market size

3,7 млрд \$

38%

Average annual growth rate of the international VR equipment market
