We are able to solve problems at all stages of project development

Idea

Stage 1

- Small expenses
- No income

Initial implementation project

Stage 2

- Costs are significant increase
- The first ones appear income

Attraction investment

Stage 3

- The company passes point break-even
- The first one appears profit

Attraction additional competencies

Stage 4

- Profit growth companies

Exit on market, IPO

Stage 5

The main problems with which to us clients contact:

- Lack of money for project development
- Low interest of strategists/TOP managers in innovative products
- Lack of knowledge and opportunities to obtain them
- Lack of qualified personnel involved in the innovation project
- vie support with states

A complex approach for implementation innovative projects

Zero Gravity Foundation

Provides financing and marketing support to the company **InnTarget**

[You can become a shareholder of the project](#)

and co-owner of the fund company through the purchase of tokens **GRAVY** at an early stage [DAO ZHCASH](#), you can also [view the full list of project presentations](#) and companies co-owned by the fund

Zero Gravity Foundation is a decentralized venture fund and international aggregator on digital, innovative and blockchain technologies

The logo for Zero Gravity Foundation features the word "ZERO" in large, bold, white capital letters. Below it, the words "GRAVITY FOUNDATION" are written in a smaller, white, sans-serif font. The text is centered within a glowing blue circular ring that has a lens flare effect, set against a dark blue background with a subtle grid of small white dots.
